EDUCATION

Univerzitet u Tuzli, Prirodno-matematički fakultet
Bachelor's Degree in Mathematics, Theoretical Computer Science

Tuzla, BiH
Oct. 2022 – Present

EXPERIENCE

Prompt Engineer Intern

May. 2026 – July. 2026

Cape Ann Enterprises

Tuzla, BiH

- Built Python frontend and backend functionality using LLMs such as OpenAI ChatGPT, Google Gemini, and Anthropic Claude.
- Extended an existing AI healthcare platform with new features for Alzheimer's interviews and MoCA cognitive assessments.
- Improved conversational AI workflows and cognitive assessment functionality for healthcare-focused applications.

Software Engineer Intern

Oct. 2025 – Jan. 2026

HTEC Group Inc.

Tuzla, BiH

- Developed a TCP-based chat application with messaging, chat history, friend requests, and group management under the mentorship of Adin Glumčević, designing the system for reliability and maintainability.
- Applied TCP networking principles to ensure stable connections and accurate message delivery between clients
- Utilized Jira for task tracking and planning, and Bitbucket for version control and collaborative development.

EESTEC Hackathon 2024 - 2nd Place

Oct. 2024

EESTEC LC Tuzla

Tuzla, BiH

- Competed in a 24-hour social media creation challenge organized by EESTEC LC Tuzla and sponsored by [Debacode](#)
- Collaborated with university colleagues to design and present the project, earning 2nd place awarded by the jury
- Built the solution using React for the front-end and Firebase for the back-end under strict time constraints

PROJECTS

Personal Portfolio - dzombicadi.com | *React, Bootstrap, Material-UI*

June 2025 – July 2025

- Engineered a personal portfolio website showcasing professional achievements and technical skills
- Optimized site performance and implemented a responsive design for a consistent user experience across all devices
- Developed interactive features to enhance usability and presentation
